

Honk!

Cut Out and Colour in

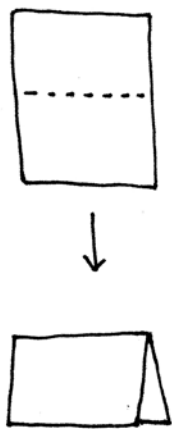

stick these characters onto lolly sticks to create your own puppets!

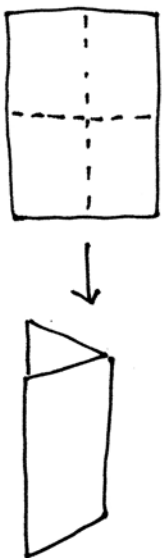

You will need:

- Scissors
- lolly sticks
- double-sided tape

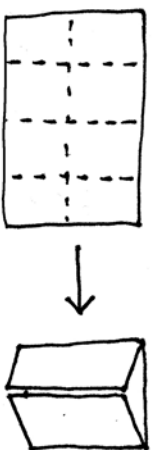

① Fold your paper in half

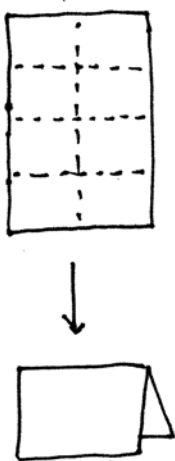

② Unfold your paper; then fold in half longways

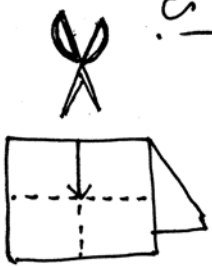

③ Unfold your paper; then fold both edges in so that they meet in the middle

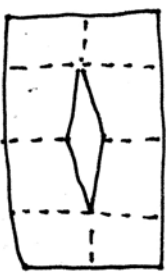

④ Unfold your paper (again!) Then fold in half like you did at the very beginning

⑤ Take your scissors and cut carefully from the very centre of the paper to where the folded creases meet - don't cut to the edges!

You should have a slit in the middle of your paper, like this:

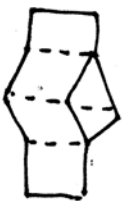

⑥ Now for the tricky part!

A: Fold in half longways:

B: Push the edges softly, so the slit opens up:

C: Fold the paper in on itself, (it will sort of naturally fold once you push gently) creating a book
